

Atrium Vascular Surgery:

A Full Complement of Advanced Vascular Graft and Patch Products for PAD and Dialysis Access

ePTFE Vascular Graft & Patch Products (polytetrafluoroethylene)

FLIXENE™
Vascular Graft

Next generation reinforced ePTFE Vascular Graft offers kink resistant trilaminate construction for superior strength and needle cannulation durability compared to other PTFE grafts. For all vascular bypass and dialysis access applications. Available in a wide variety of tapered sizes and configurations (straight and tapered; variety of distal ends: flared hood, and nitinol reinforced segment - IFG).

- Compares to:
- Bard: No competitive reinforced graft equivalent (closest – Vectra®)
 - Maquet: No competitive equivalent
 - Gore: No competitive equivalent

VXT™
ADVANTA™

Reinforced ePTFE Vascular Graft offers a novel hybrid wall structure. Designed to be used for vascular bypass and dialysis access applications. Available in a wide variety of tapered sizes and configurations (standard wall, thin wall, ringed, non-ringd, straight, tapered, and flared hood).

- Compares to:
- Bard: No competitive reinforced graft equivalent
 - Maquet: No competitive equivalent
 - Gore: GORE-TEX® and GORE-TEX® Stretch Grafts

SST™
ADVANTA™

Ultra-thin reinforced ePTFE Vascular Graft offers a unique composite 3-layer structure. Ideal for vascular bypass. Available in a wide variety of sizes (ringed, non-ringd, straight, tapered, and bifurcated).

- Compares to:
- Bard: No competitive reinforced graft equivalent
 - Maquet: No equivalent
 - Gore: No equivalent (closest – GORE® INTERING® Bifurcated (closest – GORE-TEX® Stretch Bifurcated)

VS™
ADVANTA™

ePTFE Vascular Graft offers a strong one-piece hybrid wall structure with superior needle hole integrity and handling. Designed for vascular and dialysis access applications. Available in a wide variety of sizes and configurations (standard wall, thin wall, ringed, non-ringd, straight, and tapered).

- Compares to:
- Bard: Impira® & Carboflo® Grafts
 - Maquet: EXXCEL Grafts
 - Gore: No one-piece construction equivalent

Ultra-thin reinforced ePTFE Vascular Patch that offers a unique composite 3-layer structure for improved handling and reduced needle hole bleeding. Designed to be used for vessel and graft repair. Available in a variety of sizes.

- Compares to:
- Bard: ePTFE Cardiovascular Patch
 - Maquet: No competitive equivalent
 - Gore: Acuseal Cardiovascular Patch

Atrium Vascular Surgery:

A Full Complement of Advanced Vascular Graft and Patch Products for PAD and Dialysis Access

Coated Polyester Vascular Graft & Patch Products

Ultramax™
Knitted and Woven Vascular Grafts

Coated polyester (PET) Vascular Grafts are gelatin impregnated. Available in both knitted double velour and woven graft configurations for PV and aortic applications. Available in a many sizes and bifurcated configurations (straight, bifurcated, and axillobifemoral).

- Compares to:
- Maquet: HEMASHIELD GOLD , HEMASHIELD PLATINUM, INTERGARD
 - Gore: No competitive equivalent
 - Bard: No competitive equivalent

Ultramax™
Knitted Vascular Patch

Coated polyester (PET) knitted double velour vascular patch that is gelatin impregnated. To be used for vessel and graft repair. Available in a wide variety of sizes.

- Compares to:
- Maquet: HEMASHIELD GOLD , HEMASHIELD PLATINUM, INTERGARD
 - Gore: No competitive equivalent
 - Bard: No competitive equivalent

Vascular Tunneler Set

Complete Vascular Tunneling Set to perform arterio-venous (AV) and peripheral vascular bypass (PV) procedures.

- Compares to:
- Bard: Kelly-Wick Unsheathed Tunneler
 - Maquet: No competitive equivalent
 - Gore: No competitive equivalent

SLIDER™ GDS
Graft Deployment System

Patented graft deployment system to simplify and shorten implantation time and allows for less tissue disruption and minimizes graft contamination. Available exclusively on Atrium's ePTFE graft product lines.

- Compares to:
- Bard: No competitive equivalent
 - Maquet: No competitive equivalent
 - Gore: No competitive equivalent
