Reimbursement of Expenses:
Atrium Medical Corporation will provide reimbursement for allowable, appropriate expenses incurred while attending the trainings. Reimbursement will be in accordance with Atrium, Advamed, state, and hospital guidelines of the attending physician. It is the responsibility of the physician to verify that expenses are in accordance with local guidelines. When appropriate, Atrium will reimburse the physician up to $750 for their travel expenses upon successful completion of the course.

Atrium will cover the cost of meals, transportation from the airport, hotel room & tax during the training above and beyond the $750 travel expense. All meals must be modest in nature and in accordance with industry standards.

Atrium Medical cannot reimburse for the fee paid to the state of PA and it cannot reimburse for the fee provided to Holy Spirit Hospital.

Overview
As part of Atrium's continued commitment to providing first class education, Atrium Medical Corporation is proud to partner with Dr. Rajesh Dave, MD, FACC, FSCAI and Holy Spirit Cardiovascular Institute, Camp Hill, Pennsylvania to provide a series of Hands-On Physician Trainings.

Dr. Rajesh Dave is the Chief Medical Executive at Holy Spirit Cardiovascular Institute and Director of Cardiac Catheterization Laboratories, Ortenzio Heart Center at Holy Spirit Hospital. Dr. Dave and Holy Spirit Hospital have created an advanced training program in an effort to provide physicians with greater knowledge and understanding of various techniques in peripheral and coronary interventions.

Each training session lasts 2 days and is limited to an intimate group of 4 physicians per training. The training incorporates daily live cases combined with detailed discussions of various techniques that can be utilized in the treatment of each patient. The training is a hands-on experience where qualified operators interact within the cath lab and are exposed to a series of complex cases.

The goal of the training is to educate each physician on the rationale behind the use of various techniques in peripheral and coronary interventions. Included within the program are "hands on" or clinical use of the ClearWay™ RX local therapeutic infusion catheter.

Physicians attending these trainings must be licensed practicing physicians with malpractice insurance. As part of the process physicians will obtain a temporary Pennsylvania Medical License and obtain temporary privileges at Pinnacle Health Heart Hospital to take part in the training.

Atrium Medical provides technical information on the ClearWay™ RX product and its performance, but is not responsible for the content of the training program.
Preliminary Training Agenda

Day 1
Arrival to Harrisburg, PA

Day 2
Live Case Demonstrations: Complex Peripheral Vasculature (PV) PCI (averages 9 cases)

Discussion Topics:

Localized Drug Delivery
Topics include the optimal therapy for delivering drugs locally, including the strengths and drawbacks of various methods (ex. ClearWay™ RX Infusion Catheter), and how best to optimize the use of these devices and what drugs are ideal in what situations.

Atherectomy
Explore various types of atherectomy including laser, rotational, and orbital. Provide overall background on the strengths and limitations of each type of device.

Stents
Review the various stents available to physicians and provide rationales as to which devices to use where and when.

Role of Vessel Measurement in PV PCI
Discuss different techniques on accurate vessel measurements and the critical nature of vessel size with various treatment modalities.

Case Discussions
Attendees are invited to bring cases for discussion.

Live Coronary Cases
As cases present themselves

Day 3
Live Case Demonstrations
Complex PV (averages 8 cases)

Depart for airport

Travel
Travel arrangements are made by the physician. Typically physicians fly into Harrisburg, PA (airport code MDT). Other possible options are Baltimore, MD (BWI), which is 1.5 hours by car or Philadelphia, PA (PHL) which is approximately a 2 hour drive.

Upon receipt of physician flight itinerary, Atrium will reserve hotel accommodations at:

Harrisburg Hilton
One North Second Street
Harrisburg, PA 17101-1601
Telephone: 1-717-233-6000
FAX: 1-717-233-6271

Accreditation and Medical Education Credits
The training course is not an accredited course; however cases performed by individual physicians during the course have been used for individual hospital certification.

Physician Selection
As the trainings have very limited space and the trainings are in high demand, physicians that are interested in being trained will be placed on a list. When space is available for a training session a physician will be contacted to determine if the dates of the anticipated training fit with the physician's schedule. If the dates are not acceptable the physician is placed back on the list for the next available training.

Please note that not all physicians interested in attending a training session can be accommodated as space is limited.

Physician's Responsibilities
When a date is accepted a physician will be provided with a list of the items needed to enroll in the training course. A physician must provide the following:

- Copy of CV: Necessary for temporary privileges at Pinnacle Health.
- Copy of Malpractice Insurance: Necessary for temporary privileges at Pinnacle Health.
- Letter from malpractice carrier stating that the physician will be covered for the specific training days in PA at Pinnacle Health. (Letter must include policy #).
- Complete PA State License Form, Pay $45.00 fee to State.
- Letter of good standing from the state where the physician is practicing. This letter must be sent from the state board where the physician is practicing directly to the PA State Board.
- Holy Spirit Hospital Application; pay $100 fee to HSH.
- Purchase a flight and FAX a copy of the itinerary to Advanced Training Coordinator at Atrium Medical at 603-882-9749. A physician is not guaranteed a spot until this is completed.
- W-9 completed if the physician wants expenses reimbursed. A physician may choose not to be reimbursed.
